Dear Mr. Davis:

On December 1, 1992 a field compliance inspection was conducted at the site of your mining claims Buffer #1-#4, UMC Nos. 322401-322404. We observed recent mining related activity located in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 3, T. 24 S., R. 9 W., SLBM (refer to attached map).

Presently this activity is in noncompliance with the Federal regulations contained in 43 CFR 3809. To bring your activities into compliance, you are required to submit a notice or plan of operations. You may submit a notice if you intend to disturb less than five (5) acres of land over the next calendar year. Your present disturbance must be included within this five acre limit. If you intend to disturb more than five acres of land over the next calendar year, you are required to submit a plan of operations.

Enclosed is a form for filing a notice or plan of operations and a map of the disturbed area encompassed by your mining claims. The form is the same for either a notice or plan of operations, however additional information may be required prior to the approval of a plan of operations. Please complete the form in as much detail as possible. If you need extra space you may attach additional sheets. Indicate on the map the location of your exploratory or other mining related activities along with the location of any additional operations you intend within the next calendar year.

Should you fail to submit a notice or plan of operations within thirty (30) days after you receive this letter, you will be issued a Notice of Noncompliance followed by appropriate remedial action.
